•Washington's Goose Ridge Estate Vineyard and Winery has entered the spirits market with Vido vodka. The 40% abv spirit is made from wine grapes and distilled using a 24-plate column still; then, the spirit rests for five days before a two-part filtration process that happens over two weeks. Vido is currently available for a suggested price of \$34 a 750-ml. in Washington, Oregon, California, Arizona, and Alaska ahead of a planned national push.
